REPORT
No. 522

AUTHORIZING THE PRINTING AS A SENATE DOCUMENT OF THE STUDY ENTITLED "UNITED STATES INTER- NATIONAL SPACE PROGRAMS"

JULY 28 (legislative day, JULY 27), 1965.—Ordered to be printed

Mr. JORDAN of North Carolina, from the Committee on Rules and Administration, submitted the following

REPORT

[To accompany S. Res. 129]

The Committee on Rules and Administration, to which was referred the resolution (S. Res. 129) authorizing the printing as a Senate document of the study entitled "United States International Space Programs," having considered the same, reports favorably thereon without amendment and recommends that the resolution be agreed to.

Senate Resolution 129 would authorize the printing as a Senate document of a study entitled "United States International Space Programs With Texts of Executive Agreements, Memorandums of Understanding, and Other International Arrangements, 1959-65," prepared for the use of the Committee on Aeronautical and Space Sciences; and further would authorize the printing of 2,400 additional copies of such document for the use of that committee.

The printing-cost estimate, supplied by the Public Printer, is as follows:

PRINTING-COST ESTIMATE

To print as a document (1,500 copies)-----	\$7,057.00
2,400 additional copies, at \$499 per thousand-----	1,197.60
Total estimated cost, S. Res. 129-----	8,254.60

Letters in support of Senate Resolution 129 addressed to Senator B. Everett Jordan, chairman of the Senate Committee on Rules and Administration, by Senator Clinton P. Anderson, chairman, and Senator Margaret Chase Smith, ranking minority member, of the Committee on Aeronautical and Space Sciences, are as follows:

U.S. SENATE,
COMMITTEE ON AERONAUTICAL AND SPACE SCIENCES,
July 13, 1965.

HON. B. EVERETT JORDAN,
Chairman, Committee on Rules,
U.S. Senate, Washington, D.C.

DEAR MR. CHAIRMAN: I have introduced Senate Resolution 129, the purpose of which is to have printed as a Senate document a report prepared for the Aeronautical and Space Sciences Committee on "U.S. International Space Programs."

This report is one of several which have been prepared in conformity with the committee's " * * * jurisdiction to survey and review, and to prepare studies and reports upon, aeronautical and space activities of all agencies of the United States * * * "

The document contains the complete texts of executive agreements, memorandums of understanding, and other international arrangements during the period 1959-65. Included are all NASA agreements that form the basis for NASA's international activities which have attracted the cooperation of 69 nations by 1965.

This report has engendered widespread interest among departments and agencies of the Government involved in international space activities; was prepared with the extensive cooperation of NASA and the State Department and will represent the only source material which contains the complete texts of these agreements. It is my understanding that both the State Department and the NASA intend to purchase several hundred copies.

Since no other volume contains the texts of these agreements in their entirety it will be an invaluable source material for persons interested in research activities involving international space activities. Therefore, I have requested that it be printed as a Senate document so that it will be sent to, and consequently available at, all the depository libraries of the United States.

Sincerely,

CLINTON P. ANDERSON, *Chairman.*

U.S. SENATE,
COMMITTEE ON AERONAUTICAL AND SPACE SCIENCES,
July 16, 1965.

HON. B. EVERETT JORDAN,
*Chairman, Committee on Rules and Administration,
U.S. Senate, Washington, D.C.*

DEAR MR. CHAIRMAN: Recently Senator Anderson, chairman of the Senate Committee on Aeronautical and Space Sciences, introduced Senate Resolution 129, the purpose of which is to have printed as a Senate document the staff report, "U.S. International Space Programs." It has been brought to my attention that, as ranking minority member of the Senate Committee on Aeronautical and Space Sciences, my position regarding the publication of this report is of interest to the Rules Committee.

Please be assured that I have no objection to the publication of the report as a Senate document and fully support the chairman's wishes in this matter.

Sincerely,

MARGARET CHASE SMITH, *U.S. Senator.*
